#### A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2018

## Management Discussion of Fund Performance

#### November 13, 2018

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments during the period ended September 30, 2018, that have affected the Fund's performance and outlook. If the Fund was established during the period, "period" represents the period from inception to the end of the fiscal period. For information on the Fund's longer-term performance, as applicable, please refer to the *Past Performance* section of the report. In this report, "Mackenzie" refers to Mackenzie Financial Corporation, the manager of the Fund. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

## **Results of Operations**

### **Investment Performance**

The performance of the Fund's Series A securities is discussed below. The performance of all series is shown in the *Past Performance* section of the report. Where series returns differ, it is primarily because different levels of fees and expenses were charged to each series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series.

During the period, the Fund's Series A securities returned -16.1% (after deducting fees and expenses paid by the series). This compares with the MSCI AII China (Net) Index return of -16.8%. All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in the index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Chinese equities performed poorly in both onshore and offshore markets during the period due to trade tensions in the region. Canadian dollar returns were further reduced by the depreciation of the Chinese yuan relative to the Canadian dollar.

Within the MSCI All China (Net) Index, energy, telecommunication services and consumer staples were the strongest sectors in Canadian dollar terms in the period, while real estate, materials and consumer discretionary were the weakest.

The Fund outperformed the index primarily because of stock selection in the consumer discretionary sector. Stock selection in the materials sector also contributed to performance, as did the Fund's cash position as Chinese equities declined.

Conversely, overweight exposure to the consumer discretionary sector detracted from performance, partially offsetting the positive impact of stock selection in the sector. Underweight exposure to the financials sector also detracted from performance.

The Fund did not hedge its foreign currency exposure, which detracted from absolute performance primarily as the Chinese yuan depreciated relative to the Canadian dollar.

Over the period, portfolio activity and market effect resulted in increased exposure to the consumer staples, materials and real estate sectors, and reduced exposure to information technology and health care. Changes to the portfolio included a new position in Fuyao Glass Industry Group Co. Ltd. and the elimination of the positions in Gree Electric Appliances Inc., JD.com Inc., China International Capital Corp. Ltd. and Hangzhou Hikvision Digital Technology Co. Ltd.

### **Net Assets**

The Fund's NAV increased by 2.7% to \$18.9 million at September 30, 2018, from \$18.4 million at March 31, 2018. This change was composed primarily of \$3.8 million in net losses (after including dividend and interest income) from investment performance, after deducting fees and expenses, and \$4.3 million in net sales.

### **Fees and Expenses**

The annualized management expense ratio ("MER") for Series A of 2.53% during the period ended September 30, 2018, was unchanged from the annualized MER for the period ended March 31, 2018. The MERs (before and after waivers or absorptions, if any) for each series are presented in the *Financial Highlights* section of this report. The MERs for Series F, Series F8, Series PW, Series PWFB, Series PWFB5 and Series PWT8 decreased due to a decrease in the management and/or administration fee rates effective June 1, 2018, as noted in the *Fund Formation and Series Information* section of the report. The MER for Series F8 also decreased due to a decrease in fund costs.

## **Recent Developments**

The portfolio management team has a positive long-term outlook for China's economy for two main reasons. First, domestic consumption is likely to increase because the middle class is getting larger and because millennials tend to consume more than older generations. Second, technology and innovation play a much bigger role in the economy than they did 10 years ago, and they are significantly improving productivity.

The team is focused on Chinese companies that are globally competitive and that benefit from domestic consumption, especially those with independent research and development capability, a strong brand, a strong balance sheet, and a reasonable valuation.

Effective June 1, 2018, Series PWF securities were consolidated into Series F securities, and Series PWF8 securities were consolidated into Series F8 securities.

## **Related Party Transactions**

The following arrangements result in fees paid by the Fund to Mackenzie or to companies affiliated with the Fund.

### **Management and Administration Services**

For each applicable series, the Fund paid management fees and administration fees to Mackenzie at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

### **Other Related Party Transactions**

At September 30, 2018, Mackenzie had an investment of 15,151 in the Fund (0.1% of the Fund's NAV).

The Fund did not rely on an approval, positive recommendation or standing instruction from the Mackenzie Funds' Independent Review Committee with respect to any related party transactions.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's unaudited interim financial statements and audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(1) This information is provided as at the end of the fiscal period shown.

- (2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. If in the period a series was established or reinstated, the management expense ratio is annualized from the date of inception or reinstatement. Mackenzie may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a fund's portfolio turnover rate in a period, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended September 30, 2018

## **Management Fees**

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by Mackenzie in part to pay China Asset Management Company Limited, an affiliate of Mackenzie, for investment advisory services, including managing the investment portfolio, providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio. Mackenzie also used the management fees to fund sales commissions, trailing commissions and any other compensation (collectively "distribution-related payments") to registered dealers and brokers whose clients invest in the Fund.

The following dealers affiliated with Mackenzie may be entitled to distribution-related payments from Mackenzie on the same basis as unrelated registered brokers and dealers: IPC Securities Corporation, Investors Group Securities Inc., IPC Investment Corporation and Investors Group Financial Services Inc.

Mackenzie used approximately 43% of the total management fee revenues received from all Mackenzie funds during the period to fund distribution-related payments to registered dealers and brokers. In comparison, such distribution-related payments for the Fund represented on average 39% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

Series PWFB and Series PWFB5 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWFB5 securities also want to receive a monthly cash flow of 5% per year.

Series PWX and Series PWX8 securities are offered through our Private Wealth Solutions to certain high net worth investors who invest a minimum of \$100,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.50%, with their financial advisor. Investors in Series PWX8 securities also want to receive a monthly cash flow of 8% per year.

Series PWF and Series PWF8 securities are no longer available for sale. Effective June 1, 2018, Series PWF and Series PWF8 securities were consolidated into Series F and Series F8 securities, respectively.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option and various low-load purchase options. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to Mackenzie if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.
